MOTIVATEDLEARNINGPROGRAM

REPORT2023-2024

Summary:

Learning is a lifelong endeavor, and in order to instill and sustain lifelong love of learning, motivation is must. For students, a lack of motivation has long been one of the most frustrating obstacle to learning which draws them behind in achieving their academic exercises. Keeping this in mind the students are constantly nourished through "MLP"

MLP has come in to force since 2013 which focuses on slow learners by allotting extra hours and deals with one to one basis. The HODs of respective departments are the chairperson and the rest if the faculty act as members .MLP not only developed student's ability in understanding the subjects but also evoked their analytical thinking for a better professional tomorrow.

It is intended to heighten ethical responsibility, promote ethical conduct in dentistry, advance dialogue on ethical issues and stimulate further reflection on common ethical problems in dental practice. So to incorporate the same in the students the above program is organized.
