INFORMATION ON EXAMINATION REFORMS CONSOLIDATED REPORTS

In the past five years, the university has made a number of changes to how exams and evaluations are conducted. Through the university's online portal, the internal assessment and attendance information is entered. Each student's examination fees are shown in the institution's portal

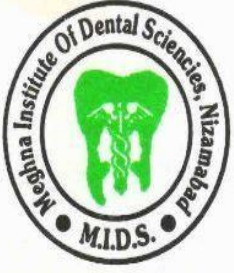

Before the deadline, exam fees are paid. The portal allows for the download of hall tickets.

The exam rooms are equipped with mobile jammers and CCTV cameras.

Fully automated question paper downloading requires the chief superintendent to sign into the university website portal 15 minutes before the start of exams.

Thirty minutes prior to the start of the exam, the cell phone jammers and cameras in the exam room are turned on. The question paper is downloaded precisely 15 minutes prior to the exam, and the downloaded copies are made in the necessary quantities. Every institute is required to keep track of everything that happens in the exam room from 30 minutes before the exam starts until the answer books are packed and sealed. On the same day as the answer book bundle, a recorded CD is sent to the university. Online evaluation of answer books is one of the most recent reforms in assessment and evaluation to increase transparency.
