Parent Teacher Association Annual Report

For the regular batch, a PTA meeting was held in January 2017 and June 2017; for the supplementary batch, it was held in September 2017 and December 2017. 5 days in advance, information about the PTA meeting was sent via registered mail or courier to encourage parents to attend to learn more about their student's progress. 73% of parents reported meeting with department heads to learn about their student's progress, discuss the student's theoretical and practical/clinical skills, and discuss how to improve for the upcoming summative exam. The PTA register included a record of every parent who reported to the PTA meetings that were held, as well as a record of each parent's individual feedback. Parents who were unable to attend the PTA meeting were also notified via letter. Parents will receive an SMS notification of daily class absentees. In order to get parents' opinions on a variety of topics, such as PTA meetings, facilities provided, teaching skills and approachability by dental and paramedical faculties, ward progress, safety, extracurricular activities, and cleanliness, parents who attended PTA meetings were asked to provide feedback at random. Ninety-five percent of parents said that the facilities were excellent. The parents' specific complaints and concerns should be forwarded to the appropriate committees or incharges for action.
